Good afternoon,

Please see the attached revised policy as per our discussion with ranchers on Nov. 7th. I feel we captured and addressed most of their concerns, minus the two-track road issue. The two-track road issue will need to be discussed further at the next meeting in hopes to reach some type of compromise.

Please review and provide any comments/edits back to me by Tuesday, Nov. 21st.

Sincerely,

Yolanda Perez

Sample- Careful advance planning with BLM personnel on handling your request for a temporary fresh water line is key to success. At least 5 working days in advance is recommended in requesting for a temporary fresh water line in order to avoid many problems and costly delays later in the process.

Can you change it to 7 days instead of 5? Thank you.
